Dear Mr. Bush,

Is this how you liberate Iraq?

Ali Ismaeel Abbas, 12, was fast asleep when war shattered his life.

A missile obliterated his home and most of his family, leaving him orphaned, badly burned - and blowing off both his arms.

With tears running down his face he asked: "Can you help get my arms back? Do you think the doctors can get me another pair of hands? If I don't get a pair of hands I will commit suicide.

"Our house was just a poor shack. Why did they want to bomb us?"

May you never forget the people you killed and the lives you destroyed.

Sincerely,
