## IRAQ AFTER SADDAM

# Dangerous OCCUPATION

U.S. deaths and casualties in Iraq since major fighting ended

On May 1 President Bush declared that major combat operations in Iraq were over. Since then, over 160 Americans have died in Iraq.

The casualty figures listed below come from a database maintained by The Associated Press. Names of service members who have died are entered only after their official release by the military. Since names are not always released immediately, the number of names in the database may not correspond to overall numbers of deaths reported by military authorities.

<b>Killed since May 1</b>	169	151	17	1
